

Advanced Vacuum Packing Machines

Ahead of all...

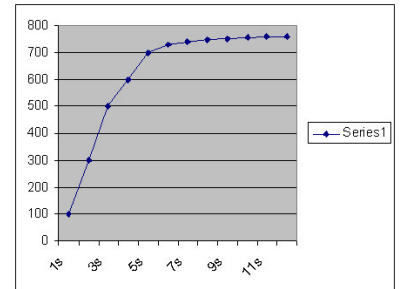

**XT
SERIES**

- Soft Vacuuming
- Anti Plummet Vacuuming
- MAP Software

 **Sevana**
Your Packaging Partner.

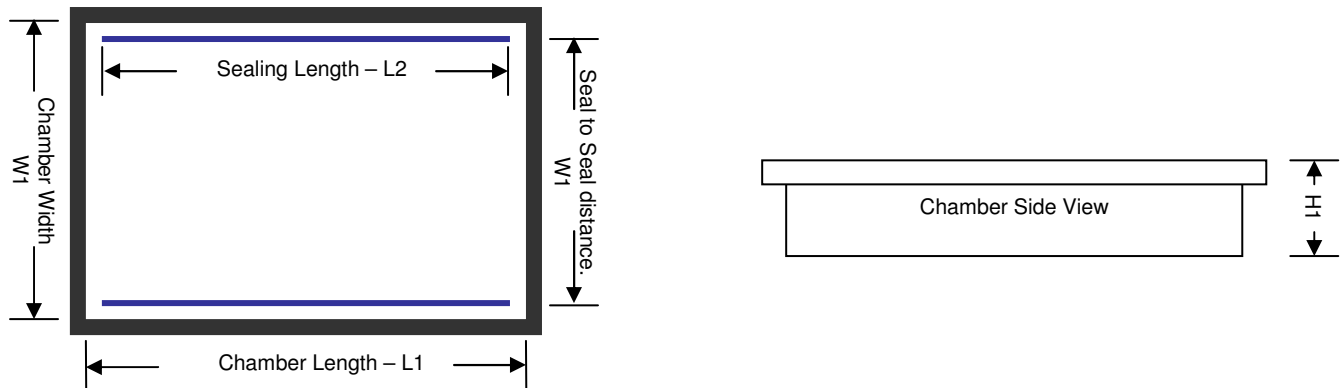

- Soft Vacuuming (Up to 9 Iteration)
 - Soft vacuum ensures minimum level of oxygen, achieved by repeated vacuuming flushing, up to 9 iteration possible, virtually making the levels of oxygen nil (0.00000000000001%)
- Anti Plummet Vacuuming for fine products
 - Plummet in vacuum levels cause fine powder to fly. Sevana's machines uses anti-plummet vacuuming by two vacuum pumps, the second vacuum pump is switched on second stage which can be preset.
- Flush up to 3 gases
 - Modified Atmosphere Packing Software, MoDat provides accurate, easy and convenient settings.
- Sensor based system for high accuracy
 - Real time feedback system provides maximum accuracy
- Micro-processor based.
 - Advanced embedded software provides speed and accuracy
- Fully see through lid.
- Five preset programs.
- Digital Display.
- Relatively Silent Mist Free Pump
- Stainless steel contact parts.
- Emergency stop button.
- Cycle Counter.
- Electrical protection systems.
- Initial fresh air flushing for pouch protection.
- Independent control for individual jaws.
- We customize as per your requirement.
- Fully Stainless steel versions are available.
- Special paint colour is available.
- Power failure air intake system.
- Sturdy and heavy gauge design.
